

● What Is netLibrary?

netLibrary™ is the most comprehensive collection of online books (eBooks) and resource materials available. Using netLibrary, you can access a wide range of scholarly and reference materials entirely online. netLibrary is as easy to use as a traditional library, but is faster, more efficient, and accessible from any location. With netLibrary, you can search every word in the entire collection, as well as search within a particular eBook.

● What Is an eBook?

An eBook is an electronic version of a printed book. eBooks can be viewed online from any computer connected to the Internet. You can preview eBooks for 15 minutes for quick reference, or read them at your leisure. Because eBooks are online, they're available at your convenience—anywhere, anytime. And you don't have to worry about returning them—eBooks are automatically returned at the end of your checkout period.

● What Is an eBook Collection?

There are two types of eBook collections at netLibrary—Library and Public. The Library Collection contains eBooks that your library has purchased. The Public Collection contains public domain eBooks that are free to everybody.

● Creating an Account

There are two ways to access eBooks at netLibrary. If you are visiting the netLibrary web site from an authenticated PC in your library, you can search or preview eBooks as an anonymous user—no login is required. To check out eBooks, you must first create a user account. Once created, you can use your user account to log in from any computer with Internet access.

To create a netLibrary account:

1. Click Create an Account.
2. Enter your identifying information, including user name and e-mail address.
3. Click Submit.

Note: Creating a new account automatically logs you in to netLibrary.

● Logging In

To check out an eBook, you must first log in using your netLibrary account.

To log in:

1. Click the Log In button on the main navigation bar.
2. Enter your user name and password.
3. Click Log In.

You are now logged in to netLibrary and will have access to all of the eBooks available in your library's collection.

● Performing a Quick Search

The search box on the main navigation bar performs a quick search, allowing you to locate an eBook by searching keyword, full text, title, author, or subject.

To perform a Quick Search:

1. Select an option from the dropdown list on the main navigation bar, either full text, keyword, title, author, or subject.
2. Enter search term.

Note: to do a phrase search, submit your search in quotes—for example, "the written word."

3. Click GO.

netLibrary displays the search results.

● Find an eBook

The main search screen allows you to search multiple fields simultaneously, including title, author, subject, keywords, full text, publisher, publication year, and ISBN. The more information you enter, the more precise the results of your search will be.

To find an eBook:

1. Enter the search text.
 - Text entered in the Full Text field searches the full text of all eBooks.
 - Text entered in all other fields will search the bibliographic records.
2. Select the collections you want to search.
Note: to do a phrase search, submit your search in quotes—for example, "the written word."
3. Click Search.
netLibrary displays the search results.

● Preview an eBook

You may preview an eBook without logging in to netLibrary. eBooks are viewed in 15 minute intervals. You will be allowed an additional 15 minutes as long as another library member has not requested the eBook.

To preview an eBook:

1. Locate the eBook you want to view.
2. Click the eBook title to display the eBook Information page.
3. Click the Preview icon.
netLibrary displays the eBook.

● Check out an eBook

To check out an eBook, you must be logged in to netLibrary. Once you have checked out an eBook, you have exclusive access to the eBook for the checkout period. The duration of your check out period is determined by your library. The eBook is automatically checked in when the checkout period expires. At the time you checkout the eBook, a status window will display the title of the eBook and the time remaining before the eBook is automatically returned to netLibrary.

To check out an eBook:

1. Locate the eBook you want to check out.
2. Click the Checkout icon.
netLibrary displays the checkout time with an option to view.
3. Choose to read the book online, or download for offline viewing.
